

Karissa Lange

EXPERIENCE

100 Devs Agency (CA)

Software Developer

JAN 2023 - PRESENT

- Used best practices to build full stack client/server applications
- Created modern, responsive sites with a team of web developers
- Handled data storage through MongoDB
- Integrate connections to REST API's for website applications

Recent Projects:

Pothos(Full Stack Website) - A plant e-commerce website using MVC file structure and MongoDB. Admins can login to the site to change and update products. Focus on user accessibility and responsiveness.

Tipsy Treefrog Brewery(Front End Website) - Mobile responsive site using Bootstrap CSS and custom design.

Make or Break Habit Tracker (Full Stack Application) - Worked in a team to develop code base. Implemented user authentication and CRUD principles to organize user data.

Other Projects: Happy Weather, Listify, OnElectric Logos

Louisville Nature Center (KY)

Lead Forest School Teacher/Content Creator OCT 2019 - MAY 2022

- Co-founded and led Swallowtail Forest Preschool
- Designed custom graphics for educational curricula and promotional materials
- Collaborated with social coordinator to analyze media trends and increase online engagement
- Implemented strategic social & video marketing campaigns to advertise and highlight brand missions
- Assisted in administrative duties, tours, special events, interviews, onboarding, and staff training

USA Gymnastics Gyms

Women's Competitive Team Coach

2012 - PRESENT

- Developed competitive training programs for gymnasts age 5-16
- Used audio and video manipulation to make custom music and dance for competitive routines
- Managed social media content across multiple social platforms

Tampa/St. Petersburg, FL
